AI Employees

for business owners

Partner sales manual

Understand our website, what to sell, and how you earn

Prices as of 8 Nov 2026. The correct price is always the one on phmnai.com/services

1. In one minute

What do we sell?

The AI Business System, a WhatsApp bot, presence in ChatGPT and Google, social media, and websites.

Who buys?

Business owners: trading companies, clinics and beauty centres, shops and restaurants, service businesses.

Your role?

You introduce the client. We answer, learn their business, send the price and do the work.

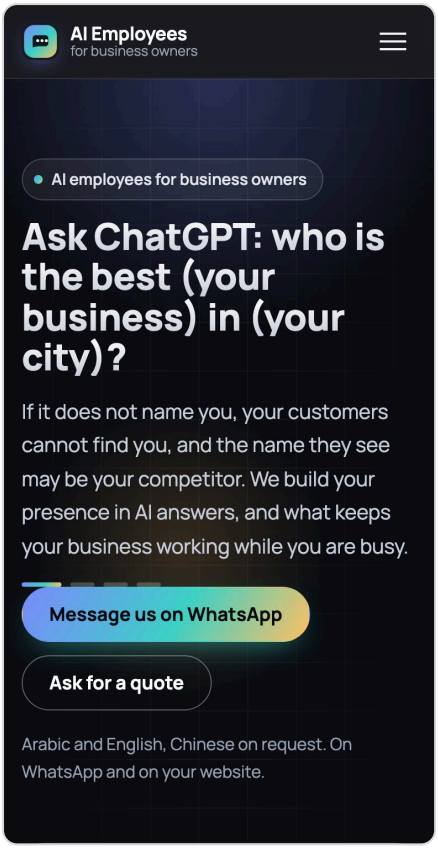

Your earnings?

10% of what the client actually pays on their first paid project. With your code the client gets 15% off the setup fee of the first order.

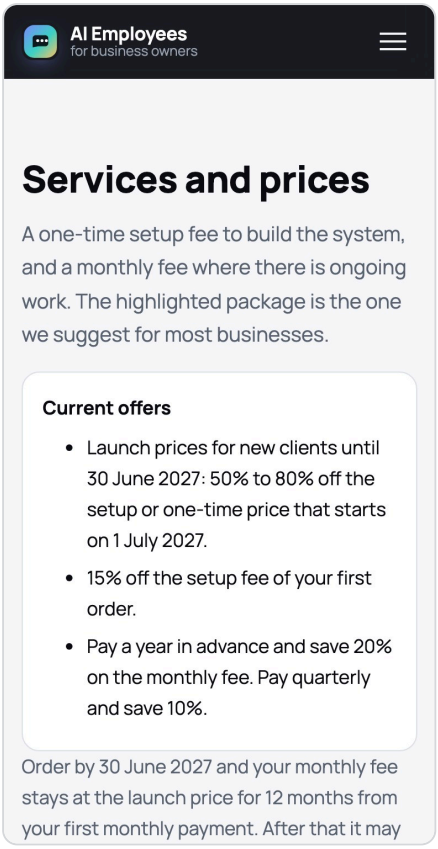

2. Our website: what to send the client

Page	What is on it	When to send it
phmnai.com	Home page with examples	First introduction
/services	All services and prices	When they ask the price
/portfolio	Our work	When they say: show me something real
/blog	Short articles and answers	When they want to understand more
/for/trading	Page for trading companies	A trader or distributor
/for/clinics	Page for clinics and beauty centres	A clinic
/for/shops	Page for shops and restaurants	A shop or restaurant
/for/services	Page for service businesses	An office or service company
/order	Order form with price and discount	When they are ready

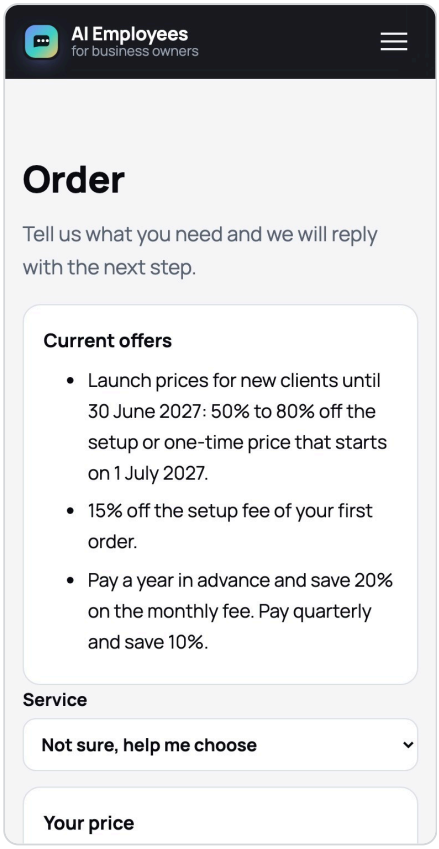

Always send your own link with your code (from your dashboard). The link saves your code for 60 days on that device and fills it in on the order form. The dashboard link opens the home page. For other pages add ?ref=[your code] at the end.

Services and prices

Order form

3. What to sell: 5 main services

Service	Who needs it	Say this	Setup + monthly
AI Business System	Traders, distributors, importers	The whole deal in one system: request, suppliers, prices, quotation, invoice, purchase order and packing list.	Basic: $400 + $50 Advanced: $400 + $120
WhatsApp bot	Any business with many messages	It answers your customers around the clock and passes serious requests to you.	Basic: $100 + $25 Standard: $250 + $45 Advanced: $500 + $80

Service	Who needs it	Say this	Setup + monthly
Presence in ChatGPT and Google	Anyone who wants to be found	Answer pages and articles that build your presence. Rankings are not guaranteed.	Basic: $150 + $150 Standard: $250 + $250 Advanced: $400 + $400
Social media	Anyone whose pages stopped posting	Posts written, designed and published without daily work from you.	Basic: $50 + $120 Standard: $100 + $200 Advanced: $150 + $350
Websites	No website, or a weak one	Arabic and English, your own code, no templates.	One page: $150 + $15 Company: $500 + $25 Store: $900 + $40 Platform: from $2000 + $100

Business System packages

Basic has no AI. In Advanced, AI reads orders from a photo or scan, price replies, and scanned certificates. Do not say the system negotiates with suppliers or writes messages: it does not.

WhatsApp bot

Basic is Arabic only. Understanding any wording starts at Standard. A second language is in Advanced. The bot never gives medical advice.

Offer until 31 December 2026

One-page website $127.50, 74% off first order. Price from 1 July 2027: $500. Care plan extra: $15 a month for 12 months, then at most $30. It is for this website only, so do not say 74% off everything.

Launch price and the 1 July 2027 price

The prices in this table are the launch prices for orders placed by 30 June 2027. From 1 July 2027 new orders pay the higher price shown on the price page. The monthly fee stays at the launch price for 12 months from the first monthly payment. After that it may rise, at most to the 1 July 2027 price, and we tell the client 30 days before. Tell the client this clearly. Your commission does not change.

Paying in advance

10% off monthly fees when paying quarterly, 20% when paying yearly.

Other services

The price page has more, such as product import, document checking and the clinic assistant. If a client asks, send the page.

4. How to talk to a client

1. Choose someone you know, not a list of numbers.
2. Ask one question about their business.
3. Send one card that fits their problem, with your link.
4. Tell them: send my code in your first message to get 15% off the setup fee of the first order.
5. We take it from there. Follow the order in your dashboard.

A ready first message

> Hello [name]. Try this: ask ChatGPT "who is the best [business] in [city]?" If it does not name you, a team I know builds that presence, and also builds the AI Business System, WhatsApp bots and websites. Send them my code [your code] for 15% off the setup fee of your first order: [your link]

4 questions that show what they need

- Do customer messages get lost after hours? → WhatsApp bot
- How do you follow suppliers, quotations and invoices? → Business System
- What appears when you ask ChatGPT about your field? → Presence
- When was your last post? → Social media or a website

If the client says

They say	You answer
It is expensive.	Start with Basic. With my code you get 15% off the setup fee.
Do you guarantee ChatGPT will recommend me?	No. Nobody can guarantee that. We build your presence in the answers.
I worry about AI mistakes.	It works under your supervision, and serious requests come to you.
Show me something real.	Send our work page or the proof card.
A question you cannot answer.	Do not guess. Say: I will ask the team. Or send them to us with your code.

5. How you earn

- You receive 10% of what the client actually pays, after the discount, on the setup fee or one-time price of their first paid project.
- No commission on monthly fees, unless we agree in writing and switch it on in your account.
- Commission is counted the day the payment arrives and shows in your dashboard. It is paid by the method you chose in your account.
- If you invite a partner with your invite link, you receive 3% of what their clients pay, on the same payments that earn them commission, and it never reduces their commission. Nothing is paid for signing up a partner. Two levels only.

Order	Price	Client pays after discount	Your 10%	Your inviter's 3%
WhatsApp bot Standard	$250	$212.50	$21.25	$6.38
AI Business System	$400	$340	$34	$10.20
Company website	$500	$425	$42.50	$12.75
Online store	$900	$765	$76.50	$22.95

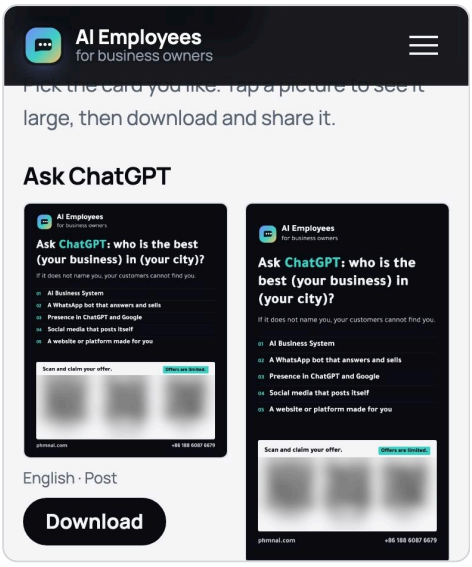

> **What does not count:** A question, a call or an unpaid quotation, or a client who contacted us before using your code.

How your code reaches us

WhatsApp	Automatic: the message opens with your code in it.
Website	Automatic: your code stays in the link for 60 days on that device and fills in the order form.
WeChat	Manual: the client must type your code in the note when adding us. Remind them, or we will not know they came from you.
You	Add the client yourself in your dashboard, with their number and country code.

6. Your dashboard: phmnai.com/account

1. Log in with the "Log in" button at the top of the site.
2. Pick the card you like. Tap the picture to see it large, then Download.
3. Each card has 2 languages (Arabic, English) and 2 sizes (post, status).
4. Or tap "Make your own image": choose the headline, look, size and your photo, or write your own words. Your code is added for you.
5. Copy your links and the ready message from the dashboard.
6. Add your clients and follow their orders. Each client shows whether they paid, how much, and your commission. Keep this information to yourself.

Your cards in the dashboard

7. Do and do not

Do

- Talk to people you know.
- Send one card, not all of them.
- Read the price on the website before you quote it.
- Say "I do not know, I will ask the team" when you do not know.

Do not

- Do not send bulk messages to people you do not know.
- Do not promise anything that is not on the website.
- Do not guarantee a rank in Google or ChatGPT.
- Do not change prices or the discount yourself.
- Do not call any company on our work page our client. Say: websites from our work.
